National Mathematics Magazine

INDEX TO VOLUME XIX

October, 1944, to May, 1945

TOPIC	AUTHOR	PAGE
Analyzing Degrees of Freedom into Comparisons When the Classes Do not Contain the Same Number of Items	Wm. Dowell Baten	221
Applications of an Operator to Algebra and Number-Theory with Comments on the Tarry-Escott Problem	Howard D. Grossman	385
Bright Skies	S. T. Sanders	2
Comparison of Simple and Compound Interest	H. E. Stelson	336
Copernicus—Representative of Polish Science and Learning	L. C. Karpinski	343
Covering Problems	L. M. Kelly	123
Development of Mathematics in Scotland 1669-1746	E. R. Sleight	173
Distribution of Prize Money in Contests	Howard D. Grossman	363
Elements of Infinity in Projective Geometry	N. A. Court	141
Equilong Geometry of Third Order Differential Elements	John De Cicco	276
Evaluation of Mathematics	S. T. Sanders	326
Evaluation of Real Roots by Means of Lower Degree Equations	Glenn James	375
Experiment in Selecting Students According to Ability and Measuring Their Achievement by Common Examination	Floyd S. Harper	27
F-Values for Samples of Four and Four Drawn from Populations Which are the Sums of Two Normal Populations	G. A. Baker	62
Geometric Interpretation of the Invariant System of Two Binary Cubics	Kathryn B. Rolfe	211
Geometric Properties of the Deltoid	H. E. Fettis	327
Golden and Platinum Proportions	E. T. Bell	21
Grateful Acknowledgment	S. T. Sanders	374
Historical Stages in the Definition of Curves	Carl B. Boyer	294
Hyper-Spatial Tit-Tat-Toe	Wm. Funkenbusch Edwin Eagle	119
Important Diagnosis	S. T. Sanders	158
Index to Volume XIX		432
Influence of Mathematics on the Philosophy of Leibniz	R. H. Moorman	131
Is the Tree of Knowledge Getting Top-Heavy?	Delbert F. Emery	359
Lure of the Infinite	S. T. Sanders	54
Magnilong Near-Laguerre Transformation	John De Cicco	229
Mathematical Support for the Theory of the Conservation of Energy	J. H. Neelley	283
Mathematics as a Field of Specialization for College Students	James H. Zant	247
